Tips

1. Start with fewer subjects if six feels like too many — consistency beats quantity.
2. 15–20 minutes per subject is plenty for young children; older children can do more.
3. Let your child colour the circles themselves — it builds ownership.

ملاحظات Notes

For parents: Remind your child that the real reward is from Allah, and praise the effort more than the result. Reward ideas: a trip to the park, baking together, a new book, choosing the family meal, an extra story at bedtime.

وَقُل رَّبِّ زِدْنِي عِلْمًا

"And say: My Lord, increase me in knowledge."

Ta-Ha 20:114
